cnn

FULL STACK DEVELOPER : ATLANTA, GA : APRIL 2013 - PRESENT

Working on an upcoming responsive relaunch of CNN.com, built from the ground up with Node, Dust and SCSS. My focus is on site speed, optimization for mobile devices, and building shared components between client and server.

Technologies: Express.js, Node, Dust.js for templating, vanilla JavaScript, Modernizr, SCSS/Compass, Git, Grunt

iostudio

FRONT END DEVELOPER : NASHVILLE, TN : JANUARY 2012 - MARCH 2013

Developed marketing sites for local and national clients, including the National Guard. Created and maintained RESTful applications for National Guard recruiters and applicants to track their progress throughout the recruitment and onboarding process.

Technologies: HTML5, CSS3, SCSS/Compass/Foundation, LESS/Bootstrap, JavaScript, jQuery, Angular.js, Backbone.js, Modernizr, Mustache/Handlebars, PHP, Twig, Git, Grunt

fruit of the loom

DESIGNER/DEVELOPER : BOWLING GREEN, KY : OCTOBER 2011 - JANUARY 2012

Designed and developed a redesign for Jerzees.com; content and product updates to Fruit.com and related properties; created iPad Newstand apps using Adobe's Digital Publishing Suite.

Technologies: HTML5, CSS3, JavaScript, jQuery, Photoshop, Illustrator, InDesign

communication components

DESIGNER/DEVELOPER : NASHVILLE, TN : MARCH 2010 - OCTOBER 2011

In charge of UI design, UX workflows and front-end development for a web application that lets a company's distributors customize corporate marketing materials and create templated websites. Also developed the brand websites for VF Imagewear.

Technologies: HTML5, CSS3, jQuery, MSSQL, XML/XSLT/XSLFO, ASP.NET, Photoshop, Illustrator, InDesign, Acrobat Pro

side projects

SUPERCHAT Hackathon project providing realtime chat using Backbone, WebSockets over Node.js, and Twilio-API for phone/text

OLIVE TREE PROMISE HTML/CSS/jQuery for an Etsylike web store, including an AJAX shopping cart interface

RISE OVER RUN MAGAZINE Started, organized, designed and developed an online magazine in college (PHP, MySQL, HTML, CSS)

skills
